iDNA

Your Office. Virtualized.

Public, Private or Hybrid Cloud— We have a Cloud for Every Organization

YOUR UNIQUE CLOUD

For your medium or small business, iDNA provides you with the same computing capabilities as large organizations, without building and maintaining your own datacenter. With our Dynamic Network Architecture, InfinIT can help match your business needs to the right technologies, and guide you from cloud strategy to migration and implementation.

Virtual Server Hosting – Windows Server to dedicated Exchange, Lync or Sharepoint hosting.

Virtual Desktop Hosting – Improve reliability and security by virtualizing your desktops.

Application Hosting – Run Quickbooks or any other custom application from the cloud.

Private Cloud Hosting – Get data center space in our secure facility.

Colocate Physical Servers – Improve your onsite server's reliability by moving it to our secure data center.

REALIZE YOUR BENEFITS Our cloud solutions create a desktop, server and application hosting platform with elastic capacity, greater security and 24/7 support.

Elasticity – Move to the cloud at your own pace and scale as you need it, when you need it.

Responsiveness – Streamlined deployment to the cloud gets your applications up and running quickly, leveraging on-demand computing. Eliminate costly and time-consuming build-out.

Familiar – Use all of the applications you rely on, right from the cloud.

Reliable – Reduce downtime with more stable applications and servers, 100% monitoring, and built-in redundancy.

Support – Unlimited helpdesk support for your users anytime, anywhere.

our passion.
your peace of mind.
